Hašpl a.s. is one of the leading European companies specialized in the nail production as well as the sale of other fasteners in the field of construction industry and wooden packaging. Over 25 years we are the reliable partner for the producers of wooden pallets, wholesalers, retails, but also small-sized craftsmen. We supply the fasteners of our standard production range, but we also make products that are tailor-made to customer's requirement.

The main idea and purpose of our work is to connect, bring together - literally, by what we produce and deliver, as well as how we treat our employees, our partners and our neighbourhood. This is why we have chosen as our motto the phrase ... **we live for fastening**.

- 1991** Mr. Václav Hašpl establishes a family production of nails in Machov.
- 1993** Moving the company into larger rented premises in Hronov.
- 1999** The company moved to its own premises in Velké Poříčí.
- 2003** We started the second production unit in Hronov.
- 2005** The legal form changed from the original natural person Václav Hašpl to the joint stock company Hašpl a.s.
- 2011** On the occasion of the 20th anniversary of the founding of the company we introduced a new logo and a new visual style of Hašpl a.s.
- 2012** We are expanding our range! Now we offer a wide variety of fasteners starting from nails, over screws up to timber connectors. The company has grown to a qualified team of 180 employees with a production capacity of 22 000 tons of nails per year.
- 2016** In the year when the company celebrated 25 years since its establishment, we launched a central warehouse and shipping point of the complete product range in Hynčice, where the factory shop was also moved from Velké Poříčí.
- 2018** We lay stress on the communication with the customers - we created an up-to-date web presentation, we prepared an innovated E-shop, and we added new communication channels (social media).
